Advantages of paired silent blocks BC2705 "BAD ROADS" compared to other manufacturers:

1. Paired construction of silent blocks
Fits the original size
which ensures trouble-free installation in the subframe, without additional modifications, and replacement of mounting bolts.
2. Innovative design that has no analogues among global manufacturers, provides more long service life on the car.
3. A special rubber compound was developed, providing dynamic endurance and resistance to static loads.
